

October 2019 New Features Bulletin

Here is a summary of all the new features and improvements that were released in iCrew during the month of October. Links to all previous bulletins can be found [here](#).

Members participating in a regatta are notified when line-ups are made public

When a coach marks the line-ups for a regatta as public, iCrew now sends an email notification out to all attending members.

Added checkbox selection options for all sessions on All Sessions Line-ups page

On the All Sessions Line-ups page, there is now a checkbox for each session that day. You can check and uncheck specific sessions, then refresh the page. This will help, for example, if you have Master's sessions in the morning and Junior's sessions in the afternoon and you want to show just a particular set of sessions.

Removed forced upper casing of tile names on line-ups pages

Previously on pages that showed line-ups, athletes tile names were shown in all UPPERCASE letters. A change was made to leave the letter casing as is set on the athlete's profile.
