

## September 2020 New Features Bulletin

Here is a summary of the new features and improvements released during **September 2020**.

**NOTE:** Links to all previous bulletins can be found here: <https://icrew.club/bulletins>.

**REMINDER:** All changes released throughout the month can be viewed by tapping the **iCrew Changes** button on the **Coach's/Admin's Home** page as shown here.

### Performance Improvements

Many iCrew database queries and some processes were changed to improve response time in the system.

### COVID-19 Screening

A COVID-19 screening questionnaire was added to iCrew so that clubs could ask members to complete the questionnaire before coming to the boathouse. A report can be viewed by coaches and admins to see the current day's responses.

### Add support for iCrew Community discussions

The Discussions feature can now be used by members across clubs to participate in discussions.

### Create a downloadable extract file for incidents

Incident records can now be downloaded to an Excel-friendly file.

### Show Clear Line-ups trashcan icons even if no rower is in a line-up

You can now clear all session line-ups even if there are no rowers assigned to any seats.

### Add custom field labels to club profile for equipment

Custom field labels can now be set on your club profile for all equipment.

### Show miles/distance on the Shell Usage report

The distance rowed is now shown on the Shell Usage report.

If you have any questions about these new features, send us an [email](#).

Thanks,

Kevin @ iCrew
